Supporting partner:

Turn demand into contracts. Be the supplier they choose.

Marble & Stone World is where the region's most ambitious architecture and design projects source their materials.

Across the Middle East, Africa and South Asia, developers, architects, contractors and designers come here to evaluate, shortlist and specify natural stone, marble, granite and surface suppliers for high-value residential, hospitality, commercial and mixed-use builds.

Co-located with Big 5 Global, it operates within the region's most established construction marketplace, connecting global stone producers with active project demand.

If your materials belong on major developments, this is where they are chosen.
